

The screenshot displays the IBM Project Manager web application. The top navigation bar includes links for Browse, Action, Device Types, and Interfaces. A blue header bar contains the breadcrumb path: ibmproject > Disconnected > SWMSMC > Device, along with the timestamp Nov 2, 2022 9:25 PM and an Add Device button.

Below the header, there are tabs for Identity, Device Information, Recent Events, State, and Logs. The Recent Events tab is currently selected. Below the tabs, a message states: "The recent events listed show the live stream of data that is coming and going from this device."

A table follows, displaying the recent events:

Event	Value	Format	Last Received
